Disabled is 2nd highest priority for weatherization and heating assistance and target benefit is given. 3rd highest priority is families with children under 6 years of age. Veterans are given preference in case if funding is low that we would be able to assist. All these target populations are usually given higher priority when it comes to heating assistance if they select wood as a heating source and also higher priority for weatherization.

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating Yes No

Cooling Yes No

Crisis Yes No

Are there exceptions? Yes No

If yes, Describe.

9.2 How do you notify the client of the amount of assistance paid?

The clients must attend program orientation and meet with their primary Case manager to review benefits that are allowable for energy assistane and/or weatherization. If its a crisis or life-threatening case they will meet with us directly when their file is pulled and completed that same day to inform them that they have a benefit paid on their behalf. If their is a case that we are unable to reach them we will call them directly to let them know that they have had an assistance benefited to them.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

To verify payments to the vendors, a questionnaire is sent to all vendors that provide services to Consumer Servies Clients. Information requested shall be offical business name, contact person, mailing addresss, Tax ID number and discription of what type of services the vendor provides. The energy vendors that we deal with are associated with the Idaho Public Utilities Commission and they usually regulate on what the cost of the energy payment is. This year the Consumer Service Program plans to mail out the questionnaire to all our energy vendors to encourage them to treat low income eligible clients equally as non-low income clients. Only original billing statements will be accepted from the applicant. All statements must be in the applicants name or another adult listed on the application.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

We usually use the Tribal Health and Human Services HIPPA guidelines to insure that clients privacy is respected. The clients are met one on one with the case manager in their office to talk about what their situation is and what we can do to assist that client with their specific need in relation to their energy bills. All clients are treated with dignity and respect and that they are told of their rights and responsiblities when they come into our office. The Consumer Service Program will work with the local energy vendors that all LIHEAP eligible clients are treated with respect in regards with working with the energy vendor to make sure that there situation be alleviated.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

Most of the energy vendors are regulated under the Idaho Utilities Commission. The unregulated vendors would be contracted services (furnace work, electrician), and wood. With these vendors we usually follow Property & Procurement Procedures that provides competitive bidding and a Independent contract agreement with that vendor.

Through public meeting and dissemination of literature reducing energy needs. Provide education through weatherization fairs and increased priority status of weatherization request households who provide independent audits and assesments on their own.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

We have a quarterly tracking system of how much funding we would use for Assurance 16 activities. Assurance 16 is designated its own specific line item in our finance ledger and is set at the 5% allowable cost for this line item. If there is a situation that this may go over it can be cost shared with other 477 Human Services programs that may be able to provide secondary or tertiary activities like venue, refreshments, promotion.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

This year we did not use assurance 16 for activities in relation. The former manager resigned her position during the first quarter of the fiscal year and i was brought aboard during the second quarter. It wasn't until our audit review that we knew what assurance 16 is and what we can do with it. Currently we are planning an energy fair and also a public hearing using assurance 16 funding in late September of this year. But next fiscal year we will be hosting another energy fair in the winter time and also another in the fall to let the people know about how to have better energy efficiency and how to save money energy wise.

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

We are hoping with the upcoming energy fair that we will be doing with the use of Assurance 16 that energy bills will be lower and that they will be less dependent on using our program for services. Our primary goal is to help families save money with their bills and make their home more energy efficient.
