Section 4: CRISIS ASSISTANCE Eligibility - 2604(c), 2605(c)(1)(A) 4.1 Designate the income eligibility threshold used for the crisis component Household size Eligibility Guideline Eligibility Threshold State Median Income 60.00% All Household Sizes 4.2 Provide your LIHEAP program's definition for determining a crisis. If you administer multiple crisis assistance programs (winter, summer, and/or year-round), Include all program definitions. An energy crisis is when a low-income household is facing disconnection within five business days and/or needs restoration to their home heating/cooling source. An energy crisis may also be the result of weather or energy-related emergencies. Vulnerable households (including an elderly (60 and older) individual, disabled (proof required) individual or young child (5 and under) with a bill due may receive crisis assistance. Finally, an energy crisis may be deemed to exist where there is an energy burden due to home energy costs when compared to the household's gross income 4.3 What constitutes a life-threatening crisis? A life-threatening crisis is an emergency requiring immediate action to prevent the loss or impairment of life/health due to a medical condition if the household's energy service is interrupted Crisis Requirement, 2604(c) 4.4 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households? 48Hours 4.5 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households in life-threatening situations? 18Hours Crisis Eligibility, 2605(c)(1)(A) Winter Year-Round Summer Crisis Crisis Crisis 4.6 Do you have additional eligibility requirements for Crisis Assistance? At least one condition listed above must exist. Equitable treatment of renters: If an applicant is behind on their rent, which includes their energy bill, the LIHEAP benefit must only be for arrearages and rate reductions related to heating/cooling energy services, not for general rental payments. Payments cannot be made directly to landlords nor households. South Carolina's LIHEAP Renter's Affidavit should be used to gather and document information that demonstrates the household is in receipt of rent reduction if provided a LIHEAP benefit.

The customer voucher includes the amount of assistance paid to the vendor.				
9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment? The vendor shall charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment. The vendor agreement attached is an arrangement between the energy supplier and the eligible entity. The eligible entity is responsible for making direct payments to the vendor on behalf of the customer. Eligible customers are notified of the award amount at the time of application and a voucher is generated via the statewide database. The state office (OEO) does not make payments directly to home energy suppliers. However, the validity of charges and payments are reviewed by OEO during monitoring.				
9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?				
The state prohibits any difference in treatment to households because of their receipt of LIHEAP assistance. This prohibition is reflected on the customer application and the statewide LIHEAP vendor agreement.				
9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households? O Yes No

Section 10 - Program, Fiscal Monitoring, and Audit

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of funds?

The State maintains the internal controls and financial management system necessary to accurately account for LIHEAP expenditures; both fiscally and programmatically. OEO's fiscal team initially reviews and accepts budget applications, then closely monitors comprehensive expenditure reports and monthly financial status reports prepared/submitted by Subgrantees. Technical assistance and fiscal training are ongoing for agency fiscal officers and staff.

10.1a Provide your definitions of the following:

Obligation

An obligation is a legal liability to pay out money in the future, or immediately, as a result of a series of actions. For OEO, funds are to be considered obligated to subgrantees, when OEO and the subgrantee enter into a grant agreement, or when OEO enters into a binding commitment with another vendor or agency. For OEO, funds are to be obligated to subgrantees within the federal award period, as stated in Section IV Definitions, E of the grant agreement and Section VI Funding; Federal Award Period of the grant agreement. For subgrantees, funds are to be considered obligated when the subgrantee enters into some form of a binding commitment to pay out money. For subgrantees, obligations may include, but are not limited to, contracts for supplies or services, contracts with local agencies, credit lines established with vendors, lease or rental agreements, and approval letters issued to clients. Subgrantees must obligate funds within the expenditure timeframe, as stated in Section III Grant Period of the grant agreement and Section VI Funding; Subgrantee Period of Performance of the grant agreement.

Expenditures

Expenditures are charges made by a subgrantee to a project or program for which a federal award was received, as referenced in 2 CFR 200.1 *Expenditures* and 45 CFR 75.1 *Expenditures*. Expenditures are to be charged to awards based on the proportional benefit of the expenditure to the federal award(s), as referenced in 2 CFR 200.405 (d) and 45 CFR 75.405 (d). Expenditures may be reported on a cash or accrual basis, as referenced in 2 CFR 200.1 *Expenditures* and 45 CFR 75.1 *Expenditures*.

Expenditure timeframe

The expenditure timeframe is the period of time in which subgrantees may charge expenditures to federal awards. The expenditure timeframe for subgrantees is stated in Section III *Grant Period* of the grant agreement and Section VI *Funding; Subgrantee Period of Performance* of the grant agreement.

Administrative costs

Administrative costs are expenses, incurred by OEO or the subgrantees, which support the day-to-day business operations of their organization. Administrative costs are overhead costs, which are not directly tied to a specific program purpose.

Audit Process

10.2. Is your LIHEAP program audited annually under the Single Audit Act and OMB Circular A - 133? Yes No

10.2a - if yes, describe your auditor selection process.

10.3. Describe any audit findings of the grant recipient (i.e. State/Tribe/Territory) rising to the level of material weakness or reportable condition cited in the single audits, inspector general reviews, or other government agency reviews from the most recently audited fiscal year.

10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.

To assure the accomplishment of program outcomes and grant compliance, the OEO will monitor each Subgrantee a minimum of one time per three program years. Monitoring visits will be scheduled and confirmation letters will be forwarded to the Subgrantee at least 30 days prior to the scheduled visit. The OEO may conduct monitoring through a team visit. The team or individuals visiting Subgrantees will prepare a summary of the field visit and monitoring report upon return to the OEO. Subsequently, the monitoring report will be forwarded to the Subgrantee, with a copy to the Chairman of the Board of Directors, and will address any deficiencies identified during the field visit. (Copies of the monitoring report will be forwarded to the entire Board of Directors when there are major issues to be addressed.) Each Subgrantee will have a specific period of time to correct the deficiencies identified, if applicable. Major findings will be tracked by OEO to final resolution. Uncorrected deficiencies may result in contract suspension or possible termination in accordance with established policies. Monitoring Report Timeline: Following the exit conference, the CAA has five (5) business days to provide pending information requested by OEO to resolve outstanding monitoring concerns. •Following the exit conference, OEO has twenty-five (25) calendar days to issue a draft report to the CAA. •From the date of receipt, the CAA has ten (10) calendar days to respond to OEO's report. Finally, OEO has twenty (20) calendar days to issue a final report, including the CAA's rebuttals. Note: If the deadline falls on a holiday or weekend, the deadline will be extended to the next business day. It is a best practice for OEO to monitor each subgrantee annually. Along with the yearly review, OEO reviews financial expenditures by way of the subgrantee submissions of financial status reports. A fiscal desk review of subgrantee's detailed general ledgers and summary expenditure reports is also performed intermittently throughout the year. A tracking of quarterly expenditures is reviewed by programmatic LIHEAP staff and households served. OEO may also review real-time customer intake applications through the statewide database.

10.7. Describe how you select local agencies for monitoring reviews. Attach a risk assessment if subrecipients are utilized.

Site Visits:

OEO provides program and fiscal monitoring for each agency, at least once every three program years. Additional monitoring will be imposed by the state if severe deficiencies are identified. As a best practice, OEO makes the effort to monitor annually. The state attempts to perform on-site monitorings annually as a best practice. Criteria used to determine the scope of monitoring include the following: Financial stability of agency•Agency's financial/quality management systems•Results of past monitorings and status of findings•Results of single audit report•Leadership and key staff of agency, turnover•Reporting and timely submission•Additional monitoring activities may be performed due to: Results of last monitoring performed•Unresolved findings•Escalation of findings from last monitoring from noncompliant to deficient or immediate deficiency•Resolution of findings•News, word of mouth, complaints, etc.•Potential mismanagement of funds•Consistent errors in reporting•Monitoring activities of the state include, but are not limited to the following:On-site monitoring (program and fiscal)•Desk monitoring•Monthly review of Financial Status Reports•Single audit review.

Desk Reviews:

Fiscal monitoring staff perform a desk monitiring of all subgrantees in addition to the on-site monitoring to assist in identifying potential issues, opportunities for training and technical assistance, and areas to focus on during the on-site monitoring. A desk review is also performed on the subgrantee's single audit with a management decision issued when required. Programmatic desk reviews will be performed as needed.

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP (Benefit Targeting Index, Burden Reduction Targeting Index, Restoration of Home Energy Service, and Prevention of Loss of Home Energy Service). Performance data is used to determine South Carolina's LIHEAP benefit matrix and the level of benefit assistance provided for energy assistance. Performance measures influence changes to South Carolina's eligibility guidelines (ex. FPL vs. SMI). An annual review of energy data and households served is used to guide South Carolina's benefit matrix which is designed to target households with the lowest incomes and highest energy need. South Carolina will continue to engage additional vendors and collect data from electric, natural gas and propane vendors/ utilities to ensure a more accurate account of customer energy consumption and costs.
