<p>1.4a. Provide your definition of categorical eligibility. Please explain how households are categorically eligible (i.e, do all household members need to receive the benefits or just one member, is there a data exchange in place?) and how categorical eligibility streamlines the LIHEAP application process.</p> <p>a household is automatically considered income-eligible for energy assistance if at least one member receives benefits from certain public assistance programs. These programs include:</p> <ul style="list-style-type: none"> • Temporary Assistance for Needy Families (TANF) • Supplemental Security Income (SSI) • Supplemental Nutrition Assistance Program (SNAP) • Faster processing: Eligibility can be confirmed quickly through benefit verification. • Reduced documentation: Applicants don't need to submit extensive income proof. Automatic enrollment: Some programs may allow households to be enrolled without submitting a direct annual application. Equitable treatment: The plan includes provisions to ensure categorically eligible households are treated the same as others in terms of benefit determination 			
1.5 Do you automatically enroll households without a direct annual application? <input checked="" type="radio"/> Yes <input type="radio"/> No			
If Yes, explain:			
<p>Each client completes an application and submits the required documentation to verify income. If the client's household qualifies for TANF, SNAP (food stamps), or SSI, they are automatically approved. Households that do not receive TANF, SNAP, or SSI will be offered the same services once their application is complete, and all information has been verified. The tribe does not administer TANF, SSI, or SNAP; instead, clients apply directly for LIHEAP assistance through the tribe.</p>			
1.6 How do you ensure there is no difference in the treatment of categorically eligible households from those not receiving other public assistance when determining eligibility and benefit amounts?			
<p>A client who is not categorically eligible will receive the same application process and time frame as a client who is categorically eligible. Benefit levels are programmed into our eligibility matrix and are based on income, household size, and cost of energy.</p>

Elderly, disabled individuals, families with children under five, and people with chronic health issues such as asthma, chronic obstructive pulmonary disease, diabetes, cardiac issues, hypertension, renal insufficiency or failure, and arthritis. Explanations of policies for each "yes" checked above:

The elderly, disabled, and families with children under five are given first priority and available appointments to complete the application. The applications are mailed to these households, and if needed, home visits are made. Renters living in subsidized housing must provide proof that they are responsible for the energy bill. This proof can be obtained from the Housing Office or the energy provider. The minimum payment will be \$400.00, with a maximum of \$700.00. The landlord is contacted for an energy bill that includes the applicant's address and the energy provider's contact information. After verification with the energy provider, the applicant is notified of the payment amount, and copies of the paid receipt will be provided to both the landlord and the client. The landlord must provide proof that all rent payments, excluding the energy bill, have been made. For example, if the rent is \$900.00, including a \$200.00 energy bill, and the energy provider was paid \$400.00, then the client should pay \$500.00, with credit issued to the energy provider for the following month. Verification will continue next month following the same process. The client will be informed about the credit and the amount the landlord is charging for energy.

Determination of Benefits 2605(b)(5) - Assurance 5, 2605(c)(1)(B)

2.4 Describe how you prioritize the provision of heating assistance to vulnerable populations, e.g., benefit amounts, early application periods,

Explanations of policies for each "yes" checked above:

The elderly, disabled, and families with children under five receive priority and available appointments to complete their applications. Applications are mailed to these households, and home visits are conducted if necessary. Renters in subsidized housing must provide proof of responsibility for the energy bill, which can be obtained from the Housing Office or the energy provider. The minimum payment is \$400.00, with a maximum of \$700.00. The landlord is contacted to obtain an energy bill showing the applicant's address and the energy provider's contact information. After verifying with the energy provider, the applicant is informed of the payment amount, and copies of the paid receipt are sent to both the landlord and the client. The landlord must provide proof that all rent payments, excluding the energy bill, have been made. For example, if the rent is \$900.00, including a \$200.00 energy bill, and the energy provider was paid \$400.00, then the client should pay \$500.00, with credit issued to the energy provider for the following month. This verification process is repeated each month. The client will be informed about the credit and the amount the landlord is charging for energy.

3.4 Describe how you prioritize the provision of cooling assistance to vulnerable populations, e.g., benefit amounts, early application periods, etc.

The minimum amount will be \$400.00, with the maximum amount being to resolve the crisis, not to exceed \$700.00. The application process is given to the elderly, disabled, and families with children under the age of five first.

They do not provide weatherization repairs or replacements, which should be the landlord's responsibility. Please refer to the attached documents regarding landlords, tenants, and homeowners. The application process is first-come, first-served for the elderly, disabled, and families with children five years old and younger, except for the homebound, for whom a home visit is scheduled. The tribe conducts a yearly tribal census to determine the needs of its citizens. Payments will go to the households with the greatest needs. Points are based on the above matrix.</p> <p>The tribe believes that, because of the limited mobility of the handicapped and the effects of aging, a higher temperature is needed to keep these households comfortable compared to others. Although the tribe is not obligated to consider these factors, there doesn't seem to be an explicit rule against doing so. Moreover, regulating temperature in mobile homes is challenging because of poor construction and insulation. Homes built before 1970 lack modern insulation, energy-efficient devices, and appliances. The tribe implements weatherization measures like caulking and weatherstripping.</p>

The household is contacted 30-45 days after to verify that the payment was made to the client's account. All households receiving services are contacted to confirm if their payment was applied. This information is documented in the file.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

If any of the questions above require further explanation or clarification that cannot be provided in the fields, please attach a document with the additional information here. Each client must complete an application and submit the required documentation. Clients receiving TANF, SSI, or Food Stamps are automatically eligible for assistance. Since we are not federally recognized, the tribe does not operate a TANF or SNAP program. Additionally, it is part of our vendor agreement that households cannot be discriminated against for being a LIHEAP client.

SEE ATTACHED VENDOR POLICIES AND PROCEDURES

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of funds?

The client completes the application, provides a roll card, views the social security card for non-tribal household members, and submits a copy of the Alabama Driver's License. The application is verified for accuracy and completeness. Income is calculated to ensure it falls within the 150% poverty guidelines. Other low-income home energy assistance providers are contacted to prevent duplication of services among clients, spouses, social workers, family members, and others. The energy vendor is contacted for the correct amount owed. Then, the check is prepared and mailed to the vendor. The client is notified of the amount, check number, and date of payment. After 30-45 days, the client is contacted to verify if the energy bill was credited. SEE POLICIES AND PROCEDURES.

ATTACHMENT.10.1 – Please enhance your response to address the following areas: 1. Tracking of awards to ensure that funds are expended within the allowable contractual period. The request is only made after receiving a complete application, and the information is verified to ensure no duplication of services. The amount on the bill is also verified to be the correct amount. A drawdown is then done through the payroll management system (PMS). Then, the LIHEAP Account is monitored for deposits, and once that amount is verified in the assigned bank account, a check is written. Then the check number, amount, and date are written on the bill. A copy of the bill with information has two copies made. A copy with the account number marked through is mailed to the client. The date of the following is documented on the approved application. The date of request is noted if there is more than one approved application. The date the check was written and mailed. The checks are often delivered to the local energy provider. The check is mailed within 3 days of receiving the funds. 2. Tracking of obligations of funds Obligation of federal funds means that a project sponsor received a federal commitment for reimbursement on a project. It is a crucial milestone in the project's development. Although helpful, the dollar amount, fund type, and date of obligation provide an incomplete picture of the situation. If a project was obligated, it does not necessarily mean that the project was initiated or completed in that year or that the obligation amount indicates the total cost of that project. Each phase of work with federal funds requires a separate obligation before an agency can begin federally reimbursable work for that phase. After an obligation takes place, the local agency may proceed with that phase. Local agencies proceed with a phase within six months of obligation. The schedule for completing a phase depends on multiple factors, including the magnitude of the project, the type of phase, and any delays that may arise. The initial recipient receives a letter of award which specifies the amount of the award, dates of service, contact information for the agency, and the Payment Management System. Then, the tribal citizens are notified of the award, along with the application dates. This information is shared on social media, via emails, letters through the U.S. Mail, and in-person telephone calls. Applications are distributed to the tribal citizens through email and U.S. Mail. Also, the applications are obtained at the appointment. The application is processed, and if approved, a drawdown is made for the specific amount needed. Monitor the bank account online to verify the deposit and confirm the account to which the money was transferred. Document the date, amount, and category the money went in, e., Heating. Cooling. Winter crisis, Cooling crisis, and weatherization. Write the check and document the information regarding the check to the client. Monitor the account to ensure funding is obligated. Winter is typically defined as the period from October 1 through March 15. The winter crisis is from October 1 through March 15 of each year. The cooling is from June 1 to September 30 of each year. The year-round crisis is from October 1 through September 30. Monitors ensure that all payments are categorized correctly. Complete the reports: Household report, Carry over, and Allotment report. Quarterly reports regarding the amounts spent and the number of clients served. 3. Tracking of vendor refunds. If a client dies, the energy provider is contacted to obtain whether the client or the family is scheduled to receive a fund. If the fund has not been given to the family, the refund is requested to be remitted to the Ma-Chis Tribe LIHEAP. If the refund has been given to the client or family, the family is required to reimburse the Tribe. 4. Separation of funding line items by component (heating, crisis, cooling, weatherization, etc.) and by federal fiscal year. The accounts are divided into the following categories according to the assigned fiscal year: Heating, from October 1 through March 15. The heating crisis lasts from October 1 through March 15, the cooling crisis lasts from June to September 30, and the year-round crisis spans from October 1 through September 30. The client completes the application, provides a roll card, and views a social security card for non-tribal household members and a copy of the Alabama Driver's License. The application is verified for accuracy and completeness. The income is calculated to ensure it falls within the 150% poverty guidelines. Other Low-income home energy assistance providers were contacted to ensure there is no duplication of services through clients, spouses, social workers, family members, and others. The energy vendor is contacted to confirm the correct amount owed. Then the check is prepared and mailed to the vendor. The client is notified of the payment amount, check number, and payment date. Then, after 30-45 days, the client is contacted to determine if the energy bill has been credited. INTAKE PROCESS 1. Timelines – The approval process is allowed 10 days from the time of application completion. Timeline begins at the time of full completion. 2. Process – At the time of application, the applicant is notified of the decision before leaving, including the amount of funds qualified to be paid on their behalf. The decision to pay is made since all information documentation has been verified. 3. Location – Applications are accepted at the MA-Chis Lower Creek Indian Tribe of Alabama Tribal Office, 2950 County Road 377, Elba, Alabama 36323 4. Time 9 am-4 Pm Monday-Friday. eligible if one household member receives one or more of the following: TANF, SSI, SNAP, or Means-tested Veterans Programs. Each year, they must reapply for LIHEAP; it is not automatically renewed. If the applicant or household member still meets the criteria for the categorically programs. How the Tribe ensures there is no difference in treatment of categorically eligible households from those not receiving other public assistance when determining eligibility & benefit amounts. The Ma-Chis Lower Creek Indian Tribe of Alabama will utilize its existing payment matrix, which takes into consideration household income, household size, and energy costs. They also need to be within the service area. The highest benefits will be allocated to households with the lowest income and the largest family size. Households may also be made eligible where one or more individuals receive TANF, Food Stamps / SNAP, SSI, or certain means-tested veteran's program payments. Their benefit level will be as shown on the income by household size matrix. However, if their household exceeds the income threshold (and they are still categorically eligible), they will still receive the minimum payment shown for that household size. Our existing LIHEAP service area is the following Alabama counties: Coffee, Crenshaw, Covington, Geneva, Houston, Henry, Barbour, Dale, Pike, Bullock, and Montgomery. Income inclusions. The Tribe considers the following in determining income eligibility: Wages, self-employment income, unemployment insurance, supplemental security income, general assistance benefits, TANF, one-time lump sum payments, alimony, child support, Veterans Administration, and income tax refunds. The Tribe does not include Medicare, SNAP, retirement, strike pay, WIC, savings accounts, WIOA, jury duty, interest, commissions, insurance payments, funds for the care of foster children, or mileage reimbursements. (The law requires that households applying for energy assistance meet income guidelines to be eligible for LIHEAP benefits. (Maximum and minimum income guidelines are listed in section 2605(b) (2) of the law.) The law does not define for you what items or sources of funds are to be counted as income, so it is important to define what your tribe will count as income. Calculation of countable income. Base income is usually defined as the gross countable income of all persons living in the household. Income is based on the past month's income. Documentation can be a pay stub for the month or bi-weekly (and adjusted for a month). Benefit Determination: The current income and benefit matrix are attached. It includes income, household size, type of service, and amount of (possible) benefit. The authorization form will have the household name, current address, and current account number for crediting purposes. A statement of procedure for following up with energy suppliers in the event of non-payment will be included in the information packet at the time of intake. Assurance that the supplier will charge the client in the normal billing process the cost difference between the actual cost and the amount of the LIHEAP payment. Definitions: Administrative Cost - The Tribe can allocate up to 20% of the first \$20,000 (or \$4,000) plus 10% of the remaining amount of funds payable to administration and planning. Section 19: Certification Regarding Drug-Free Workplace Requirements

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central pint is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

1. By signing and/or submitting this application or grant agreement, the Grant recipient is providing the certification set out below.
2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the Grant recipient knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
3. For Grant recipients other than individuals, Alternate I applies.
4. For Grant recipients who are individuals, Alternate II applies.
5. Workplaces under grants, for Grant recipients other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the Grant recipient does not identify the workplaces at the time of application, or upon award, if there is no application, the Grant recipient must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the Grant recipients drug-free workplace requirements.
6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
7. If the workplace identified to the agency changes during the performance of the grant, the Grant recipient shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).
8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grant recipients attention is called, in particular, to the following definitions from these rules:

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a Grant recipient directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the Grant recipients payroll. This definition does not include workers not on the payroll of the Grant recipient (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the Grant recipients payroll; or employees of subrecipients or subcontractors in covered workplaces).
