1.4 Do you consider households categorically eligible if at least one household member receives at least one of the following categories of benefits in the left column below? ◉ Yes ○ No

If you answered "Yes" to question 1.4, you must complete the table below and answer questions 1.5 and 1.6.

1.4a. Provide your definition of categorical eligibility. Please explain how households are categorically eligible (i.e, do all household members need to receive the benefits or just one member, is there a data exchange in place?) and how categorical eligibility streamlines the LIHEAP application process.

Households having at least one member who receives Supplemental Nutrition Assistance Program (SNAP) during the LIHEAP Program Year (October 1st September 30th); Supplemental Security Income (SSI), and/or Means-tested Veterans Programs are categorically eligible (CE) for services under the Low-Income Home Energy Assistance Program (LIHEAP).

If yes, describe

In the event of a governor declared or federal declared natural or manmade disaster, Idaho may request permission to use LIHEAP resources to provide emergency services to low-income individuals and families in the designated disaster area.

Idaho considers the presence of elderly, disabled or children, under 19, in the household as well as households with high energy burdens as priority demographics for weatherization. All participants will be prioritized according to the Weatherization Application Priority Formula Worksheet (Priority Formula) rules. Priority is automatically calculated by each Community Action Agency's Weatherization reporting database based upon emergency situation; priority populations living in the household, including elderly persons, persons with disabilities, and children under 19; high residential energy use; and high energy burden. First priority to receive services is assigned to those eligible participants with an emergency heating situation.

When selecting a home for energy audit, Community Action Agencies will review a participant household's priority level relative to all other active applications within the same county that are eligible for the funding source planned to ensure to ensure proper prioritization of grant funds.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating	(•) Yes ( ) No
Cooling	( ) Yes (•) No
Crisis	(•) Yes ( ) No
Are there exceptions?	(•) Yes ( ) No

If yes, Describe.

Idaho sends payments via ACH or by state warrant to utility companies who have signed up to be LIHEAP vendors. Idaho makes payments directly to the participants when the household's heat is included in the rent and when there is not an available home energy supplier with a current LIHEAP vendor agreement on file (i.e., when the household utilizes bulk fuel).

9.2 How do you notify the client of the amount of assistance paid?

All participants receive a benefit determination letter in-person, by mail or by electronic message.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

We perform monitoring of home energy suppliers to verify that the payment was applied to the customer account correctly and timely.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

We perform monitoring of home energy suppliers to ensure LIHEAP households are treated the same as other customers. We require home energy suppliers to sign a vendor agreement where they agree to not treat LIHEAP customers differently than non-LIHEAP eligible customers.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

( ) Yes (•) No

If so, describe the measures unregulated vendors may take.
Attach a copy of the template statewide vendor agreement or a policy that indicates local agreements must adhere to statewide policies and assurances.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of funds?

LIHEAP funds are distributed between Administrative, Program Support, Leveraging and Assurance 16 categories up to the grant award amount. Each funding category is assigned a project number and tracked to ensure that expenditures do not exceed the amount allocated to the budget category. Subgrantee's submit monthly invoices that are reviewed for allowability of expenditures, and to ensure funding does not exceed the amount allocated in the subgrant/budget category. Vendor refunds are reviewed by the Program and are logged. Vendors are required to provide information that explains the refund so that the original issuance date can be identified. Program notifies fiscal of the correct program year to record the refund. Idaho uses LUMA as their fiscal software system.

Subgrant Expenditures: Subgrant Recipients are required to submit monthly invoices by the 15th of the month, for the prior month. Invoices are reviewed for completeness and accuracy by a separate unit at Health and Welfare. Part of this review involves ensuring that the Subgrantee has enough funding to be reimbursed. The Program Manager reviews expenditures monthly to monitor progress of fund expenditures. Subgrantee's are contacted prior to the end of the contractual period to review remaining funding, discuss ability to spend out allocated funding and perform Subgrant amendments to adjust funding that will not be expended to other Subgrantee's, if needed.

Tracking Funds: LIHEAP funds are tracked by funding categories using assigned project numbers. New project numbers are assigned at the start of each Program Year. This allows us to track funds that are issued as benefit and spent by the Grantee and Subgrantee's. The Grantee maintains a project number for their Administrative/Indirect costs and LIHEAP Benefits issued. Subgrantee's receive new project numbers, each season, for Administrative Funding, Assurance 16, Leveraging and LIHEAP Weatherization funds. Funding from other grant types (disaster, IIJA, etc.) is tracked the same way.

LIHEAP Refunds: LIHEAP funds that are returned come to the Grantee. We track these funds and record the refund on the participant file and in a tracking log. We require the vendor provide us the information about funds to identify who they are for, what Program Year they came from and why they are being returned.

10.1a Provide your definitions of the following:

Obligation

Funds issued as a LIHEAP benefit or spent by the Grantee prior to September 30th of the current Program Year and funds that are put into Subgrant are considered obligated.

Expenditures

Benefits issued to eligible LIHEAP households, funds spent by the Grantee for program Administration on or before September 30th of the current Program Year, and allowable costs spent by Subgrantees during the two-year availability of funds.

Expenditure timeframe

Ninety percent of the funds must be spent or obligated before September 30th of the current program year. The remainder of funds must be spent by September 30th of the second year.

Administrative costs

Administrative Costs cannot exceed 10% of the federal award. This amount is determined at a state level. Administrative funding is split between the Grantee and the local community action agencies and obligated through Subgrant. Subgrantee funding is determined by formula. Administrative cost are the funds necessary for the proper administration and management oversight of the Idaho LIHEAP program, including all costs, both direct and indirect, associated with the general administration and coordination of the program; supportive services including accounting, human resource, and procurement; development of policies, goals, and objectives; participant intake and eligibility determination; and monitoring.

Audit Process

10.2. Is your LIHEAP program audited annually under the Single Audit Act and OMB Circular A - 133?
(●) Yes ( ) No

10.2a - if yes, describe your auditor selection process.

The Legislative Audits Division performs the annual Idaho Statewide Single Audit for federal funds expended. They complete the Single Audit in accordance with federal requirements and governmental auditing standards. The Single Audit covers the prior fiscal year for the entire department, and specific federal programs are selected using the methodology described in eCFR § 200.518 Major program determination.

10.3. Describe any audit findings of the grant recipient (i.e. State/Tribe/Territory) rising to the level of material weakness or reportable condition cited in the single audits, inspector general reviews, or other government agency reviews from the most recently audited fiscal year.

Section 12: Fair Hearings, 2605(b)(13) - Assurance 13

12.1 How many fair hearings did the Grant recipient have in the prior federal Fiscal Year? 0

12.2 How many of those fair hearings resulted in the initial decision being reversed? 0

12.3 Describe any policy and/or procedural changes made in the last federal Fiscal Year as a result of fair hearings?

N/A

12.4 Describe your fair hearing procedures for households whose applications are denied and/or not acted upon in a timely manner.

The household is given an eligibility determination notice upon completion of their application. LIHEAP participants and applicants have the right to request an administrative appeal or fair hearing if they disagree with the Department's decision. The participant's appeal rights are included on the eligibility determination notice and on the formal 'Notice of Denial' letter. If the participant feels they were wrongly denied services, the direct service provider holds a conference with the participant in attempt to resolve the issue. If the matter cannot be resolved, the direct service provider assists the household with completing the appeal form and submits the appeal request to the Department of Health and Welfare's Fair Hearing Unit.

Standard fair hearing procedure:

Appeal requests must be received within 30 days of the date of decision. The customer may complete the Fair Hearing Request form, submit a written request including their name, address, phone number and the issue they are contesting, or verbally request an appeal by calling the Department. Once a fair hearing request is received, the Fair Hearing Unit contacts the customer to discuss the basis of the hearing, address the customer's concerns and clarify the action taken by the Department. If the contested issues is adequately addressed, the customer may elect to withdraw his/her appeal request. If the issue cannot be resolved, the appeal is scheduled with the hearing officer for a telephonic hearing. The hearing officer will mail or email a Notice of Scheduled Hearing to the customer and Department representative including the date, time and instructions for calling into the hearing. Once the hearing has taken place the hearing officer has 14 days to issue a preliminary order of decision, which is sent to the Department and the customer. If the individual does not agree with the hearing officer's decision, he or she has an opportunity to appeal the decision by filing a Petition for Review which is managed by the Administrative Procedures Section. Instructions and timeframes for requesting a Petition for Review are included in the preliminary order of decision.

12.5 When and how are applicants informed of these rights?

This information is on the front page of LIHEAP application and included in eligibility notices the household is given upon completion of their application. The participant's appeal rights are included on the eligibility notice of approval and on the 'Notice of Denial.' The language aligns with other programs (SNAP, Medicaid, TAFI, etc.)

- referrals to the Weatherization program
- referrals to Keep Kids Warm, Project Share, Con Ed Kits and other utility funded energy programs, energy education to vulnerable/fixed income populations (including education on level pay and energy conservation) & advocacy on behalf of households with home energy vendors to prevent disconnection.

Key points of the booklets are reviewed when clients are applying for LIHEAP. Also, the PDF version is emailed to clients that do not come into the office. Applicants will be given a survey at the end of their appointment regarding the energy education they have been given and discussed.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

We calculate up to 5% of the LIHEAP award as the maximum amount of funding. This amount is divided between the Subgrantee's using a funding formula. Assurance 16 funds are assigned a project number that is used by the Subgrantee's when they submit invoices. Program reviews each invoice for allowable costs and to ensure expenditures do not exceed the funding allocated. All A16 activities are entered into our case data management system for tracking purposes, and each agency has to provide a plan for how they will utilize these funds each PY including tracking use of funds, measuring the impact of the funds used and use surveys to determine the effectiveness of the activities or materials used to improve A16 uses ongoing.

13.3 Describe the impact of such activities on the number of households served in the previous federal Fiscal Year.

A large impact of A16 services is utility shut off prevention and referral to the weatherization program. In the previous federal fiscal year, 12,918 households were in danger of having their utilities shut off and 3,106 households received services that restored services after disconnection. In addition, 16,024 of 32,507 households experienced improved energy efficiency and/or energy burden reduction in their home.

13.4 Describe the level of direct benefits provided to those households in the previous federal Fiscal Year.

Depending on the fuel type of the household, the average percent reduction of the household's energy burden was between 31.7% and as high as 60.7%.

13.5 How many households received these services? 19,589

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP)
MODEL PLAN

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP (Benefit Targeting Index, Burden Reduction Targeting Index, Restoration of Home Energy Service, and Prevention of Loss of Home Energy Service). Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

Idaho continues to collect data on the four required LIHEAP performance measures. The four required measures are as follows:

-Energy Burden Targeting (all households)
-Energy Burden Targeting (high burden households)
-Restoration of Home Energy Service
-Prevention of Loss of Home Energy Service

Idaho evaluates data collection related to federal reporting requirements quarterly to minimize inaccurate data. This is expected to continually improve the quality of data collected within the statewide database.

Idaho's LIHEAP Intake Manual is reviewed annually to include any policy and/or process improvements to support integrity of data collection. Collection of the four data points related to the Performance Data form were incorporated into this policy manual. This manual is used by LIHEAP intake staff and program managers.

Idaho hosts monthly meetings with our subgrantee’s to discuss challenges with program delivery and to identify solutions. Changes to current process are then incorporated into the policy manual to ensure high-quality program implementation and accurate data collection.

Idaho's vendor agreement requires vendors to submit cost and consumption data reports annually. The data will be analyzed in preparation for reporting on the LIHEAP Performance Measures report. Idaho will continue to review LIHEAP performance measure data to aid in interpreting the state's approach to enhancing LIHEAP program delivery.
