OMB Clearance No.: 0970-0075
Expiration Date: 09/30/2020

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 2 - Heating Assistance

Eligibility, 2605(b)(2) - Assurance 2

2.1 Designate the income eligibility threshold used for the heating component:

Add	Household size	Eligibility Guideline	Eligibility Threshold
1	All Household Sizes	State Median Income	60.00%

2.2 Do you have additional eligibility requirements for HEATING ASSISTANCE? Yes No

2.3 Check the appropriate boxes below and describe the policies for each.

Do you require an Assets test ? Yes No

Do you have additional/differing eligibility policies for:

- | | |
|---|---|
| Renters? | <input type="radio"/> Yes <input checked="" type="radio"/> No |
| Renters Living in subsidized housing ? | <input type="radio"/> Yes <input checked="" type="radio"/> No |
| Renters with utilities included in the rent ? | <input type="radio"/> Yes <input checked="" type="radio"/> No |

Do you give priority in eligibility to:

- | | |
|---------------------------------------|---|
| Elderly? | <input checked="" type="radio"/> Yes <input type="radio"/> No |
| Disabled? | <input checked="" type="radio"/> Yes <input type="radio"/> No |
| Young children? | <input checked="" type="radio"/> Yes <input type="radio"/> No |
| Households with high energy burdens ? | <input checked="" type="radio"/> Yes <input type="radio"/> No |
| Other? See explanation below | <input checked="" type="radio"/> Yes <input type="radio"/> No |

Explanations of policies for each "yes" checked above:

Each Local Service Provider is required to submit a priority plan as part of their contract. The priority plan identifies four categories: Poverty Level, Energy Burden, Vulnerable Population and Agency-Defined. Agency-Defined category is optional. The following five priority categories will serve as the basis for Agency-Defined priorities (examples provided are not all inclusive):

Medically Needy - *Examples:* Needing special medical equipment, high medical expenses relative to income

Frail Elderly - *Examples:* Homebound, 80+, living alone, lack of access to services, poor health

Severe Financial Hardship - *Examples:* Recent loss of income, receiving Unemployment Insurance Benefits (UIB), high risk of homelessness, income eligible for LIHEAP but ineligible for other need-based benefits

Hard to Reach- *Examples:* Geographically/culturally isolated, language barrier(s), significantly underrepresented in clients served vs. local demographics

Priority Offsets - *Examples:* Client receiving other utility, rent or mortgage subsidies; client served in previous year.

NOTE: No application for benefits may be rejected based on previous receipt of benefits, and an alternate-year policy must allow for continuing prioritization of services to the most vulnerable clients. An "alternate-year policy" may be one of the elements in a priority system for determining eligibility for LIHEAP benefits and assistance (see the "Priority Offsets" category above). However, an alternate year policy will not be used to arbitrarily deny benefits or assistance to clients who are genuinely needy, particularly if the result is to grant benefits or assistance to a less needy applicant.

Determination of Benefits 2605(b)(5) - Assurance 5, 2605(c)(1)(B)

2.4 Describe how you prioritize the provision of heating assistance to vulnerable populations, e.g., benefit amounts, early application periods, etc.

Based on an assessment of each client, Local Service Providers assign points for each of the first three categories and the Agency-Defined categories, if the

Local Service Provider elects to use this additional fourth category. Clients with the highest resulting number of points are served first, though priority may be given to households with life-threatening emergencies.

2.5 Check the variables you use to determine your benefit levels. (Check all that apply):

- Income**
- Family (household) size**
- Home energy cost or need:**
 - Fuel type**
 - Climate/region**
 - Individual bill**
 - Dwelling type**
 - Energy burden (% of income spent on home energy)**
 - Energy need**
 - Other - Describe:**

CSD conducts an "Individual Utility Company Rate Survey." In the survey, utility companies report their residential rates, by county, for gas and electricity. CSD uses this information to establish average utility costs for each county. These costs will be used to factored into the benefit formula to determine LIHEAP benefit levels.

Benefit Levels, 2605(b)(5) - Assurance 5, 2605(c)(1)(B)

2.6 Describe estimated benefit levels for FY 2018:

Minimum Benefit	\$142	Maximum Benefit	\$1,000
------------------------	-------	------------------------	---------

2.7 Do you provide in-kind (e.g., blankets, space heaters) and/or other forms of benefits? Yes No

If yes, describe.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

The priority plans are in narrative format and identify multiple categories used to prioritize services, such as: Poverty Level, Energy Burden, Vulnerable Population, New Applicants, Health & Safety Issues, Proximity to other eligible dwellings and Agency-Defined (Agency-Defined categories are described above). Based on an assessment of each applicant, some Local Service Providers prioritize by assigning points for each of these categories and serving those with the highest point value first, though priority may be given to households with life-threatening emergencies.</p>

<input type="checkbox"/>	Joint application for multiple programs
<input checked="" type="checkbox"/>	Intake referrals to/from other programs
<input checked="" type="checkbox"/>	One - stop intake centers
<input checked="" type="checkbox"/>	Other - Describe:

CSD and Local Service Providers coordinate activities with similar and related programs administered by the federal, state, and the public and private sector, particularly low-income, energy conservation programs. CSD is working with the California Public Utilities Commission (CPUC) and the state's investor owned utility companies to develop strategies to better leverage and coordinate our mutual resources to benefit low-income households in the state.

Local Service Provider refer potentially eligible participants, including heating and cooling, and crisis applicants, to the weatherization program, California Alternate Rate for Energy (CARE), Reduced Rate Programs (RRP), and/or to other energy or conservation programs. This referral is accomplished through interagency agreements, communications with pertinent agencies, one-stop centers, utility companies, and public/private partnerships. Local Service Providers provide assistance in coordinating the payment of client's energy/utility bill with the appropriate energy vendor or utility company.

CSD administers a state funded Low-Income Weatherization Program (LIWP) program that offers weatherization and renewable energy services to low-income households that resides in disadvantage communities as defined in CalEnviroScreen 2.0. CSD coordinates referrals between LIWP and LIHEAP to potentially expand services to low-income households, and is working on policies to prevent duplication of services between the programs when services are similar.

8.6 What is your process for selecting local administering agencies?

The LSP network is comprised of more than 40 Local Service Providers (LSPs), which include private, non-profit and local government service providers. These LSPs have strong ties to their local communities and have many years of experience providing public assistance programs to the low-income customer in their respective service territory.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating Yes No

Cooling Yes No

Crisis Yes No

Are there exceptions? Yes No

If yes, Describe.

In most cases, direct payments are issued to energy vendors. Occasionally, dual party warrants are issued and are made payable to the client and the energy vendor. On those few occasions when utilities are included in the rent or sub-metered, warrants are issued directly to the client.

For those heating and cooling and crisis clients whose energy source is WPO, Local Service Providers make payment directly to energy vendors.

9.2 How do you notify the client of the amount of assistance paid?

1. When a WPO payment is made directly to an energy vendor, the Local Service Provider sends the client a letter, advising them of the LIHEAP payment amount and date.
2. When a crisis, and/or heating and cooling payment is made to an applicant with utilities included in rent, submetered utilities or with non-participating utility companies, the Local Service Provider provides the client letter indicating the amount of the benefit and the utility company to be paid, if applicable.
3. When a crisis, and/or heating and cooling payment is made directly to an energy vendor, the vendor shows the amount of the credit on the customer's bill, indicating that the payment was made to LIHEAP. The Local Service Provider provides the client with a letter indicating the amount of the benefit and the utility company to be paid.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

When a crisis, and/or heating and cooling payment is made directly to an energy vendor, the vendor shows the amount of the credit on the customer's bill, indicating that the payment was made by LIHEAP. The Local Service Provider provides the client with a letter indicating the amount of the benefit and the utility company to be paid.

CSD evaluates the notification process of LIHEAP payments during program evaluation visits.

A different process is in place for Crisis payments, depending on whether the home energy supplier is a regulated utility or a non-regulated one.

Regulated Utilities are audited by the California Public Utilities Commission (CPUC) to ensure that proper billing procedures are in place and the amount of payments or credits are accurate. No modification of energy rates can occur without a public regulatory process, which is administered by the CPUC.

For Non-Regulated energy vendors:

1. Local Service Providers use a "Confirmation of Payment" form whereby the non-regulated energy vendors records the date and amount credited for each account.
2. Local Service Providers are required to have each home energy supplier sign an assurance agreeing to the requirements of this section. Local Service Providers keep this information on file and clients are advised of their right to fair and equal treatment at the time of service. CSD staff ensures compliance with this provision during program evaluation visits.
3. Local Service Providers verify, before paying energy suppliers for all types of delivered fuels, that the charges for the services and goods provided are reasonable and within fair-market value. The amounts of these charges are reviewed during program evaluation visits made by CSD staff.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

Local Service Providers require each home energy supplier to sign an agreement to adhere to the requirements of this assurance. Local Service Providers keep this information on file and clients are advised of their right to fair and equal treatment at the time of service. CSD staff ensures compliance with this

provision during program evaluation visits.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

During intake, Local Service Providers inform applicants of their right to appeal all claims for assistance that are denied or are not acted upon with reasonable promptness.

1. Local Service Providers review all claims from applicants who are determined ineligible for benefits or who have submitted written notice that there has been an unreasonable delay in processing their application or receiving their benefits.
2. Local Service Providers conduct a fair, and impartial appeals review and are required to make a good faith effort to resolve the applicant's complaint(s) at the local level. The Local Service Provider, as contractor, makes a written finding which sets forth the case of both parties and the decision of the Local Service Provider.
3. If the appeal is not resolved at the local level, Local Service Provider informs the applicant that an appeal to the State agency (CSD) may be requested as part of the Fair Hearing process and shall provide the applicant with the appropriate form.
4. If the applicant decides to appeal to CSD, the applicant submits a written appeal request to be received by CSD within 10 days from the date of the contracted Local Service Provider's final decision. Upon request from CSD, Local Service Providers provide all supportive documentation to be received by the State via email or postmarked within 5 working days.
5. Within 10 working days of receipt of the requested documentation from the contracted Local Service Provider, the CSD Fair Hearing Officer reviews the appeal and supportive documentation, confers with the appellant and the contracted Local Service Provider if necessary, and notifies parties of the hearing. Within 30 days from the date of the hearing, the parties are notified of the Fair Hearing Officer's decision in writing.

12.7 When and how are applicants informed of these rights?

Applicants are informed, in writing, regarding the appeal process which is located on the CSD 43 Energy Intake Form. Applicants sign and date acknowledgment that they've read and understand their rights to appeal. Additionally, applicants will be able to view their rights to appeal on CSD's public website. The "Filing Appeal" button can be found by clicking the "Services" tab, then "Help paying your bills".

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Local Service Providers address the energy needs of low-income households by conducting a thorough energy needs assessment of each client, providing budget counseling, energy conservation education, and coordination with utility companies. Whenever possible, weatherization services are also provided to offer a preventive, holistic and long-term solutions to energy needs.

Local Service Providers maintain a source document that substantiates that the client was provided these services. The document is kept on file by the contractor and is reviewed during routine program evaluation visits made by CSD staff.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

Up to 5% of the total block grant is allocated specifically for Assurance 16 activities and distributed by formula to the contractor network. CSD provides a budget form for contractors to account for Assurance 16 activities.

Local Service Providers are contractually required to submit monthly expenditure and activity reports to CSD. These reports are monitored cumulatively to ensure that no more than 5% is spent on Assurance 16 activities. The data is entered into an automated database management system, which calculates and verifies compliance. Status reports are printed regularly for use by CSD staff. Issues needing clarification and areas of concern are more readily identified with the automated system that, in turn, allows for a more timely resolution with contractors.

Local Service Providers are made aware of the 5% cap, and through the local planning process, have the flexibility to submit proposed funding levels up to the 5% cap, for activities specifically targeted for Assurance 16.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

The impacts of the budget and energy education are that clients are more aware of their energy and household costs, which may result in overall household savings.

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

N/A

13.5 How many households applied for these services? N/A. CSD does not track the number of applications submitted for LIHEAP assistance.

13.6 How many households received these services? 210,284

Section 14:Leveraging Incentive Program, 2607(A)

14.1 Do you plan to submit an application for the leveraging incentive program?

Yes No

14.2 Describe instructions to any third parties and/or local agencies for submitting LIHEAP leveraging resource information and retaining records.

Local Agencies participating in the Leveraging Incentive Program are required to submit a leveraging report to CSD. Agencies are required to retain all support documentation for period of three (3) years.

14.3 For each type of resource and/or benefit to be leveraged in the upcoming year that will meet the requirements of 45 C.F.R. Â§ 96.87(d)(2)(iii), describe the following:

Resource	What is the type of resource or benefit ?	What is the source(s) of the resource ?	How will the resource be integrated and coordinated with LIHEAP?
1	Discount/waiver	Utility Companies	Local agencies and CSD coordinate the services provided under LIHEAP with existing reduced rate programs at California's larger investor-owned utilities, as well as, many smaller municipal utilities. The coordination of these programs enables the agencies to expand services to families who otherwise would not receive assistance due to lack of information about the programs. This coordination occurs through prearranged agreements between the local CSD/LIHEAP contractors and the utility companies. The LIHEAP contractors work in direct conjunction with the utility companies by maintaining ongoing communication to screen and refer potential clients and coordinate benefits. In order to maximize the impact and effectiveness of both programs, applicants are screened to determine if the applicant from either source has already received any benefits. The applicant is provided assistance in completing an application for the reduced rate programs at the time the applicant is being assisted for HEAP.
2	Cash	Non-profits	This resource was integrated and coordinated with LIHEAP in two ways: a. Due to funds from both sources (LIHEAP and utility companies/third-party co-payments) being used in the same household, the low-income household benefited by receiving LIHEAP assistance in addition to assistance from either the utility company program or third-party co-payment once the LIHEAP programs maximum level of assistance was reached. b. To ensure that low-income household have year-around access to energy assistance and that the greatest number of low-income household receive assistance, local agencies have coordinated the services provided under LIHEAP with local private and public energy assistance programs. The coordination of these programs enables the agencies to expand emergency services to families who otherwise would not receive assistance through LIHEAP due to insufficient funds. The coordination occurs through prearranged agreements between the local LIHEAP contractors and the utility assistance providers. The LIHEAP contractors work in direct conjunction with the utility assistance providers by maintaining ongoing communication to screen potential clients and coordinate benefits. In order to maximize the impact and effectiveness of both programs, applicants are screened to determine if any benefits have already been received by the applicant from either source.
3	Cash	Utility companies	Utility companies provide funds to provider agencies, allowing agencies to install additional measures in qualifying low-income homes.
4	Cash	Utility companies	This resource was integrated and coordinated with LIHEAP due to funds from both sources (LIHEAP and utility companies) being used in the same household. The low-income household, therefore, was further weatherized to prevent the loss of heated and/or cooled air from the dwelling. As a result of the coordination of the weatherization contracts, additional LIHEAP-eligible households received weatherization measures, as appropriate as allowable within LIHEAP contract. The client files are documented and maintained at each respective agency.
			This resource is coordinated with LIHEAP because LIHEAP eligible and other low-income households are identified as needing repair or replacement of

5	Cash	Utility companies	appliances during the time the dwelling is being assessed for weatherization services. Additionally, the utility companies utilize a bid process to identify administering agencies. CSD-funded agencies are successful in the bid process in large part due to their experience in providing weatherization services under LIHEAP and because they are known entity in the low-income community.
6	Cash	County	Funds were used in conjunction with LIHEAP to assist with utility deposits; to repair homes prior to receiving weatherization materials and for direct weatherization of LIHEAP eligible households which would not have received assistance due to lack of funding availability. As a result of the resources generated from the County General Fund, additional LIHEAP eligible households received weatherization measures mentioned in Resource #5 as appropriate and allowable within the LIHEAP contract. The client files are documented and maintained at each respective agency.
7	In-Kind Contribution	Landlords	Coordination with landlords to provide additional LIHEAP eligible households weatherization and appliances as appropriate and allowable within the LIHEAP contract.
8	Discount/waiver	Local Suppliers	Direct negotiations with local suppliers of weatherization materials for the LIHEAP Program resulted in lower than market costs for materials purchased in bulk quantities. As a result of the resources generated from the discount received from these bulk purchases, additional LIHEAP eligible homes received weatherization measures as appropriate and allowable within the LIHEAP contract.

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

CSD has implemented changes to its intake form to meet the required LIHEAP performance measures reporting.

CSD and its Local Service Providers modified its internal/external reporting system to enable CSD's local service providers to transfer data collected from the intake form into CSD's reporting system.

Over the next federal fiscal year, CSD will continue its partnerships with Investor Owned Utilities to continue obtaining utility cost and local energy consumption data. CSD will also work with local government utilities and municipal utility companies to obtain data exchange agreement to obtain utility cost and energy consumption data.

Section 19: Certification Regarding Drug-Free Workplace Requirements

Section 19: Certification Regarding Drug-Free Workplace Requirements

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central pint is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

- 1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.**
- 2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.**
- 3. For grantees other than individuals, Alternate I applies.**
- 4. For grantees who are individuals, Alternate II applies.**
- 5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.**
- 6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).**
- 7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously**

identified the workplaces in question (see paragraph five).

8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

***Controlled substance* means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);**

***Conviction* means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;**

***Criminal drug statute* means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;**

***Employee* means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).**
