The Indiana Utility Regulatory Commission (IURC) later promulgated regulations under the authority of IC 8-1-2-121 at 170 IAC 4-4-16.6 and 170 IAC 5-1-16.6.

Under Indiana state law and regulations, utilities may not disconnect service to customers if:

- The customer has submitted a complete application and eligibility is being determined by the local LSP or their subcontractor.
- The customer has furnished proof to the utility provider of his/her application to receive such benefits, or IHCD, the local LSP or the LSP's subcontractor has notified the utility in writing.

If you are an electric or gas utility, including a municipality owned, privately owned, or cooperatively owned utility, then you qualify as a "utility" for the purposes of the moratorium law. The definition of "municipally owned utility" means every utility owned or operated by any city or town in Indiana.

Any person who has agreed to pay for electric or gas services exclusively for residential purposes is a customer. Receipt of an EAP benefit does not affect someone's status as a customer.

Any household who has applied for EAP **on or after October 1st** cannot have its service disconnected between December 1 and March 15. A "qualified" household is defined as a household that has active service and has submitted a completed application that has been approved by its LSP, and a staff person at the agency has determined or is determining that eligibility meets the program requirements based on household income, number of household members, and utility bills (See Section 701 of the 2015-16 Program Operations Manual for all of the components of a complete application).

Simply submitting an application does not automatically make a household eligible. If the local LSP has insufficient resources to conduct an eligibility review of the the application, the household is not protected.

Once the household has submitted an application and has been deemed or is being deemed eligible for the EAP benefit, the client is protected under the moratorium, whether a benefit has been received or not. Clients deemed eligible for EAP, but do not have a benefit due to insufficient program funds, will be placed in a HOLD status. All clients deemed eligible, but in this HOLD status, will be placed on a report. That report will be submitted to the utility vendors to ensure moratorium protection.

If a utility has negotiated a payment arrangement with a client who has qualified for EAP and the client violates that payment arrangement before December 1, the utility has the right to disconnect that client prior to December 1, as that client is not yet protected by the moratorium. If the same client has active service as of December 1, the utility may not disconnect that client until March 16.

A utility vendor may refuse EAP benefit at any time during the heating season. Benefit refusal does not prevent moratorium protection. A client who has submitted a complete application and is being deemed or has been deemed EAP eligible and has active service on December 1 will receive moratorium protection through March 15.

Based on the utility policy change, utilities are required to be in the name of a household member, age one (1) or over, unless the lease agreement requires the utilities to be listed in the landlord's name. Circumstances may arise where landlords and tenants must create a utility payment arrangement to ensure that the utility bills are paid on time. This policy provides clarification on moratorium protection when the payment between the landlord and client is breached.

If the utility is listed in the landlord's name, but the client has breached payment agreement with the landlord, the landlord may request service disconnection during the moratorium period. Though the client was deemed eligible for EAP assistance, the landlord is the customer of record on the utility bill.

If the utility is listed in the client's name, but the landlord had breached the payment agreement, then the client is protected under the moratorium because the client is the customer of record on the utility bill.

Regulations allow the utility to disconnect the utilities for a customer otherwise covered under the moratorium in the following circumstances:

- If a condition dangerous or hazardous to life, physical safety or property exists.
- Upon order by any court, the IURC, or other duly authorized public authority.
- If fraudulent or unauthorized use of electricity or gas is detected, and the utility has reasonable grounds to believe the affected customer is responsible for such use.
- If the utility's regulating or measuring equipment has been tampered with and the utility has reasonable grounds to believe the affected customer is responsible for such tampering.

Indiana Housing and Community Development Authority has been designated as the state oversight authority for LIHEAP since 2006. Indiana utilizes its network of 22 Community Action Agencies and 1 non-profit to administer LIHEAP services. New service providers are identified in the event that there are unresolvable or significant compliance issues or is no longer able to administer LIHEAP services. New service providers, when needed are, are vetted through a Request for Proposal (RFP) process and selected by an IHCD RFP Review Committee and approved by IHCD's Board of Directors.

In FFY2016, (23) local service providers served Indiana with EAP. All territories have coverage in FFY2017; resulting in (22) local service providers.

Section 10 - Program, Fiscal Monitoring, and Audit, 2605(b)(10) - Assurance 10

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
ADMINISTRATION FOR CHILDREN AND FAMILIES

August 1987, revised 05/92,02/95,03/96,12/98,11/01
OMB Clearance No.: 0970-0075
Expiration Date: 06/30/2017

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

Every two years through the CSBG Comprehensive Administrative Review process, IHCD's Contractor conducts financial monitoring reviews that include reviewing various financial documents that include, but are not limited to, the following:

- Balance sheet
- Income statement
- Bank reconciliation for financial statements
- Accounts payable
- Accounts receivable
- Claims
- Audit files
- Aging payables and receivables
- Any findings associated with EAP or LIHEAP-Weatherization
- Fiscal year end or interim balance sheets
- The Contractor shall read each sub-grantee's policies and procedure manuals related to the documents notes within this response for testing of various financial practices, including but not limited to, the Cost Allocation Plan, Inventory List, and Procurement Procedures.

Annually IHCD's Contractor conducts a claims and transmittal analysis assessing the sub-grantee's administrative, program support, and direct service costs. The Contractor reviews (8) administrative claims for each LIHEAP and LIHEAP-WAP program, that reflect (4) transmittals and (4) administrative claims for each EAP sub-grantee.

The IHCD Internal Auditor reviews each sub-grantee's most recent single or program -specific audit required by the Single Audit Act Amendment of 1966, (U.S.C. 7501-7507) previously prescribed as an A-133 Audit.

The Contractor, upon request, may review and document any unresolved findings from other funding sources in the most recent financial audit.

The Contractor shall obtain guidance from IHCD regarding the elements of the fiscal review that are required by IHCD Policy and Procedures Manuals that are applicable to these programs and the reporting and tracking processes required by HHS and DOE.

The Contractor shall conduct regularly scheduled meetings with IHCD management to ensure that financial monitoring objectives and claims review are met according to and in compliance with overall IHCD objectives.

When an allocation is made to an agency, a budget form is included. The agency fills out the budget adhering to the percentages we allow for each line item. When the agency returns the agreement and the budget, it is checked carefully for math and line item percentage allocations. If these agree, we then sign off to the budget and send it to IHCD's Operation's Department. Operations update the budget in our accounting system. Each line item is entered separately and the budget is line-item enforced meaning that the agency cannot spend more than is budgeted for on each line of the budget.

If an amendment (Money added or subtracted) or a budget modification (same amount of money but dollars change among line items) is received, we check the math carefully, check the allowable percentages per line item and then check to make sure that the agency has not overspent more than what they are asking the budget line item to be. If any of these are incorrect the budget is returned to the agency and the errors are pointed out to them. If the EAP Program Associate happens to miss any of these items the Operations Department will alert the Program that the budget cannot be qualified.

In addition, we will track funds expended by requesting a carry-over report four times during the year. In this way we make sure that all LSPs are receiving the funds they need to best serve their clients. IHCD, also, uses the same series of steps for any summer activity we may do such as a Summer Cooling Program.

Regarding obligations: we carefully track our agencies during the year for heating and crisis. A weekly report is created plugging in their budget and those dollars expended. We track which agencies are under obligations as well as those that look like they may need additional funds. We go over this report every Monday.

During Close Out of the federal year, we then ask the LSPs for their close out documentation to make sure their budget, their expenditures and their percentages are in line with what we show in our Operations Department. If there are any errors found on any Close-out Report, the LSP is informed and IHCD works with them to correct errors until the report is in balance. If the LSP is found to be over their percentages, then IHCD request a return of those funds.

10.2. Is your LIHEAP program audited annually under the Single Audit Act and OMB Circular A - 133?

Yes No

10.3. Describe any audit findings rising to the level of material weakness or reportable condition cited in the A-133 audits, Grantee monitoring assessments, inspector general reviews, or other government agency reviews of the LIHEAP agency from the most recently audited fiscal year.

No Findings

Finding	Type	Brief Summary	Resolved?	Action Taken
1	financial	Internal controls insufficient to appropriately classify loans or grants in the CDBG and HOME programs.	In Progress	procedure/policy changes
2	monitoring	Internal controls insufficient for subrecipient monitoring related to HUD Continuum of Care Program.	Yes	procedure/policy changes
3	monitoring	Subawards from FFY2016 lacked some of the required language to comply with 2 CFR Section 200.331(a) for the LIHEAP Awards.	Yes	procedure/policy changes

10.4. Audits of Local Administering Agencies

What types of annual audit requirements do you have in place for local administering agencies/district offices? Select all that apply.

- Grantee conducts fiscal and program monitoring of local agencies/district offices

Compliance Monitoring

10.5. Describe the Grantee's strategies for monitoring compliance with the Grantee's and Federal LIHEAP policies and procedures: Select all that apply

Grantee employees:

- Internal program review
- Departmental oversight
- Secondary review of invoices and payments
- Other program review mechanisms are in place. Describe:

Every two years through the CSBG Comprehensive Administrative Review process, IHCD's Contractor conducts financial reviews that consist of a thorough analysis of recent financial statements and their relationship to the trial balance, general ledger, the IRS 990 form and subsidiary ledgers.

Local Administering Agencies / District Offices:

- On - site evaluation
- Annual program review
- Monitoring through central database
- Desk reviews
- Client File Testing / Sampling
- Other program review mechanisms are in place. Describe:

After The IHCD's Contractor completes the monitoring visit a survey is sent via Survey Monkey to the LSP to complete an anonymous survey that provides feedback about the contractor and to make sure that proper protocol was followed.

10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.

IHCDA will pull at least (3) percent of the agency's client eligibility files and submit the files to the contracted file monitor for the review.

Notification of the visit will be sent at least 30 calendar days prior to the visit. The LSP will receive the monitoring list of files according to the following schedule:

- For agencies whose file total is greater than (500), they will be notified no more than (14) calendar days prior to the review.
- For agencies whose file total is less than (500), they will be notified no more that (7) calendar days prior to the review.

The Monitors will conduct the review at the agency's primary (or main) location. Each review will include an entrance review, a client eligibility review, financial review, programmatic and exit conference. The client eligibility review analyzes the components of the application for completeness and accuracy as defined in Section 10.1. The financial review ensures that EAP applications are remitted via transmittals to utility vendors within 60 days from their approval date and that transmittals are submitted to IHCD within (5) days of receipt from the utility vendors. The programmatic interviews allows EAP program staff to explain the QA review process, energy education program, outreach activities for at-risk clients and intake procedure for taking internal applications.

For Weatherization, the program monitoring includes a review of program administration, procurement, training & licensing, data base input, fiscal information, client file review and field inspections. At least 10% of completed DOE client files which includes LIHEAP Weatherization funding will be reviewed.

10.7. Describe how you select local agencies for monitoring reviews.

Site Visits:

All (22) Local Service Providers receive a Risk Assessment annually and a site visit. In addition to site visits, IHCD performs a risk assessment for each agency on an annual basis.

Desk Reviews:

LIHEAP Files are uploaded into the EAP Data Tracking System and desktop monitoring occurs offsite. Additionally, monitoring individuals are reviewing additional details while onsite.

10.8. How often is each local agency monitored ?

Each agency receives a monitoring visit annually by a contractor.

10.9. What is the combined error rate for eligibility determinations? OPTIONAL

Local Service Providers must have an error rate of 14% or less to be considered compliant. Any error rate at 15% or above will trigger additional monitoring visits.

10.10. What is the combined error rate for benefit determinations? OPTIONAL

Local Service Providers must have an error rate of 14% or less to be considered compliant. Any error rate at 15% or above will trigger additional monitoring visits.

10.11. How many local agencies are currently on corrective action plans for eligibility and/or benefit determination issues? 2

10.12. How many local agencies are currently on corrective action plans for financial accounting or administrative issues? 0

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Indiana uses LIHEAP funds to conduct the following Assurance 16 activities:

Family Development-Family Development provides low-income households with short term and long term case management. A goal of the program is to increase the participation of at-risk families by providing outreach that should be directed toward the elderly, veterans, disabled and households with young children.

Through Family Development case management, clients set goals and receive referrals for education, budgeting, home energy assessments, employment, child care, and a range of other self-sufficiency tools.

Energy Education - Energy Education is administered through the Local Service providers. The recipients receive conservation tips and techniques in addition to energy conservation tips. During the 2016-2017 LIHEAP program year a pre-test and post-test will be given to households to determine how the client's energy education knowledge changed after receiving energy education.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

Indiana has budget restriction requirements for Local Service Providers to spend a maximum of 5% on Family Development and Energy Education

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

During the 2015-2016 LIHEAP season 30,475 households have been provided Energy Education on how to conserve energy.

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

Local Service Providers gave out Energy Kits to 9,327 households with a value of \$90,517.15

13.5 How many households applied for these services? Households do not apply and LSP's have varying methods to conduct energy education, such as including energy education during the time of application and/or scheduled sessions at a later date.

13.6 How many households received these services? 30,475

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

In 2015 IHCDCA responded to the initial Performance Measures initiative by working with the top 10-15 utility providers seeking data requirements and testing the overall process. Since then, IHCDCA has further researched the HHS resources and attended various webinars to identify the newest requirements. Since the HHS requirements were provided, IHCDCA has taken steps to confirm what data collection is being accomplished thus far, what data still needs to be collected and what action plan is needed to effectively implement. As part of the Action Plan, IHCDCA has begun discussing the needed changes with our utility providers. Additionally, we are taking steps to work with our EAP System provider, Roeing, to complete enhancements to the RIAA (EAP Data Management System).

An overpayment occurs when a client's account is overpaid. These are funds that need to be returned to the program. The funds are removed from the clients account and returned to IHCDCA from the utility vendor if the error is detected within sixty days of the application's initial approval or denied. If the overpayment is discovered after the sixty day timeline, the LSP will be required to make all repayments to IHCDCA.

The money is not due to the client, nor does it get added back into the LSP budget. Instead funds are used to fund other program activities. To collect these funds, LSPs will submit an overpayment remittance in RIAA (formerly negative transmittal) as notification for payment. The utility vendor will send the payment along with the remittance to IHCDCA.

The utility vendors have the option to decline the overpayment request because services and/or discounts have been rendered to clients. If utility vendors opt not to pay for overpayments or put charges back on clients' accounts, the agencies will be required to remit funds back to IHCDCA from its private, agency funds. IHCDCA will send a remittance for payments to the LSP.

LSP's cannot pay for negative adjustments to clients' benefits with Federal funds. LSP's must pay for the overpayments from their corporate unrestricted funds. Overpayments will be applied back to the grant, not the individual LSP's budget.

<input checked="" type="checkbox"/>	Clients found to have committed fraud are banned from LIHEAP assistance. For how long is a household banned? Indefinite until funds are paid in full.
<input checked="" type="checkbox"/>	Contracts with local agencies require that employees found to have committed fraud are reprimanded and/or terminated
<input checked="" type="checkbox"/>	Vendors found to have committed fraud may no longer participate in LIHEAP
<input checked="" type="checkbox"/>	Other - Describe:

The purpose of investigating fraud, waste and abuse are:

1. To ensure that energy assistance benefits are received in the correct amounts and only by those individuals who are eligible.
2. To recover tax dollars obtained by participants through fraudulent activities, unintentional participant error, administrative error or non-compliance.
3. To deter future occurrences of fraud and/or non-compliance within all energy assistance programs and to help maintain integrity.

The following three (3) terms should not be confused with Non-compliance, which is the failure of the individual participant to act in accordance with the rules and regulations of the energy assistance programs:

1. **Fraud** is defined as "wrongful or criminal deception intended to result in financial or personal gain".
2. **Waste** is defined as "consuming, spending or expending thoughtlessly or carelessly".
3. **Abuse** is defined as "misusing or using improperly or excessively".

While all three (3) of the situations have serious financial implications for an LSP, fraud occurrences will likely be the most investigated. Fraud occurs when a participant knowingly and willfully provides false information about circumstances. Fraud, also occurs when a participant intentionally fails to report changes in his or her circumstances in a timely manner in order to receive benefits for which he or she is not eligible. To constitute fraud, the participant must know that the information he or she provides is false and that he or she did so with the intent to gain something of value.

A participant providing incorrect information by mistake is NOT committing fraud. Also, a participant does not commit fraud if he or she is unaware of their responsibility to provide certain information. The participant may provide false information for reasons other than to receive excess benefits in which case he or she is NOT committing fraud. For instance, the participant may have an embarrassing situation that causes them to fail to report the actual circumstances of their situation. Or, there may be other reasons that need to be taken into consideration for concealing the truth or failing to report charges.

Early Detection and Prevention: Early Detection and prevention is designed to detect and prevent fraud prior to authorization of energy assistance benefits. Effort needs to be taken to keep fraud and non-compliance from occurring in the first place. By practicing early detection and prevention, the intake worker can refer applicants who meet certain conditions to their supervisor for in-depth examination.

This begins with thorough training of all intake workers. The intake worker must be capable of conducting detailed eligibility interviews and identifying cases that need to be referred to their supervisor. An initial step is to check RIAA Ineligible Applicant List. This will let you know immediately if the applicant should be processed further.

Another step is to make sure that all applicants are fully completed and no information is missing or does not make sense. Questions should be asked in all situations where the intake worker needs further or more definitive clarification.

Even though early detection and prevention are utilized, there will be situations where people receive benefits they are not entitled to. Once this happens, notification is usually through a whistleblower, an anonymous tip or an agency monitoring or other action. This is when an investigation is initiated.

Investigative Steps. An investigation is a detailed examination or search to determine if an individual has committed an act of non-compliance or fraud and/or received benefits to which they were not entitled, resulting in a claim. When an investigation is started the following steps should be taken:

1. An In-house Investigation: These are things that can be done at the agency through the LSP's records and database.
2. Determine Eligibility Factors: based on the information received from the applicant, are they eligible for energy assistance? If there is a specific eligibility question for the applicable time period, consult the Energy Assistance Guidelines for the time period.
3. Review Background Information. Review background information that is available at the LSP about the applicant. These are several different sources available:
 - a) Previous EAP application
 - b) RIAA database
 - c) Public and Government Websites

Determine whether the information received from the applicant conflicts with any information found during the background checks or received from an informant. If there are no conflicts, there is no need to proceed any further. If information does not conflict in some fashion, further investigation is needed.

Documentation. It is vital to provide documentation, in chronological order, of each step taken in the course of the investigation. This will provide a detailed and complete record of the processes used and the information obtained. Documentation will include investigation notes as well as copies of relevant documents. These are not just important for agency records, but also for situations where law enforcement will need to be involved. There are six(6) basic questions to keep in mind while collecting information during the course of any investigation.

WHO. The case should include the names, addresses and phone numbers of the applicant and other contacts made regarding the investigation.

WHAT. The case notes should reflect all the eligibility factors being investigated, such as: income, household composition, resources, living arrangement, etc. Make sure the applicant is eligible in all areas of eligibility, not just the area that prompted the investigation.

WHEN. Write down the data and time of all contacts made during the investigation. This will be needed should the case be appealed or if the law enforcement gets involved.

WHERE. Write down the correct address, location and time of any interview, home visit or other fact gathering activity.

WHY. Write down the reason(s) for the investigation in the first place and the reason for any actions on the case.

HOW. Document the way in which the information was received.

Potential Sources(To assist with your investigation):

Employment Records: Does the name match on the income documentation? Does the social security number match on the award letter or tax return? Does the participant work for the State of Indiana? Review records for tax deductions for children.

Utility and Phone Bill: Contact the utility and phone service providers to determine who is billed and pays for the service.

Landlord or Mortgage Company: Contact the landlord and ask if he knows who lives in the rental property. Obtain a copy of the rental agreement or mortgage papers to determine who is party to the contract. Determine who pays the mortgage.

Courthouse and/or Records Office Records: Both of these areas are vulnerable sources of information. You will be able to determine recent loan, judgement, mortgage and real estate transfer activity if the participant or property owner. You can, also, search divorce, custody and marriage records.

Sheriff or Police Department: Local law enforcement agencies keep records of all calls and investigations. If law enforcement made a trip to the participant's address, they may have listed the names of all persons living there.

Confidentiality: The investigation of possible fraud, waste or abuse should be kept as confidential as possible. This is done to ensure the integrity of the investigation. The more people who know about an investigation, the greater the chances of the subject finding out about the investigation. Knowledge of and participation in an investigation should be shared only with necessary persons.

Final Steps: Once the violation has been identified, investigated and supporting documentation has been reviewed and corroborated by the agency, action needs to be taken against the participant's application or against their benefits if they have already been distributed. Actions taken can range from the rejection of the application to the termination of benefits and request for repayment of funds. The case can, also, be submitted to Federal officials if the situation warrants.

The IHEDA Community Programs Monitor and Compliance Attorney are available to assist at any phase of the investigation, if needed. However, be sure to make the IHEDA Community Programs Community Programs Monitor is aware of all substantial acts of fraud, waste and abuse. The Monitor will contact IHEDA's Compliance Attorney if the situation warrants.

Section 19: Certification Regarding Drug-Free Workplace Requirements

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central point is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

- 3. For grantees other than individuals, Alternate I applies.**
- 4. For grantees who are individuals, Alternate II applies.**
- 5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.**
- 6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).**
- 7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).**
