	account any financial crisis in the household that may have resulted in the household's inability to meet its utility or fuel expense in the past 30 days.
	In these cases, the household's net income, rather than gross income, may be considered to determine income eligibility.

4.1 Designate the income eligibility threshold used for the crisis component

Add	Household size	Eligibility Guideline	Eligibility Threshold
1	All Household Sizes	HHS Poverty Guidelines	150.00%

4.2 Provide your LIHEAP program's definition for determining a crisis.

Households that have received a written disconnect notice from their utility vendor or a statement of non-delivery or sale of fuel from their fuel vendor due to lack of payment or inability to pay, or do not have sufficient funds to open an account, or do not meet the security deposit requirements, may be eligible to receive a crisis LIHEAP benefit. The Department is required to provide intervention to resolve an energy crisis that may exist. The processing of the applications for households in a crisis situation includes contacting the utility company or fuel provider within the specified time frames to resolve. Contact with the utility vendors will be provided no later than 48 hours after the household's application for LIHEAP benefits has been approved and no later than 18

hours for households with a life-threatening emergency. Crisis intervention is not available to households that have already received a LIHEAP benefit in the current federal fiscal year. Due to the COVID-19 pandemic, New Mexico will allow a one-time lump sum payment to households that have already received a benefit during FFY20 and FFY21. Below is a description of how the benefit will be distributed.

CARES LIHEAP stimulus benefits will be distributed to current households that have already received a LIHEAP benefit during FFY20 and FFY21. These payments will be sent on behalf of households who are in arrears or have a disconnect notice. Households that have arrears or a disconnect notice prior to the bill date of April 2020 will not be eligible for the benefit. Customers who have arrearages before April 2020 will not be eligible for the benefit. The total grant amount available from the CARES act for LIHEAP is \$5,385,500 and will be accessible until 09/30/2021 or until funds have been exhausted:

- -Customers will not need to fill out an application for this benefit;
- -Utility Vendors will provide customer information needed for the Automated System Program and Eligibility Network (ASPEN);
- -These funds will be paid directly to the utility vendors on behalf of the customer;
- -Supplemental Benefit will be a one-time lump sum amount of \$300.00;
- -Households receiving the COVID-19 benefit will need to be tracked separately from those that have/will receive regular LIHEAP funding for FFY2020/21 or until funds are exhausted;
- -If two vendors have the same customer in arrears or with a current disconnect, ASPEN will issue the benefit to the vendor with the highest

4.3 What constitutes a <u>life-threatening crisis?</u>

Per NMAC, 8.150.100.7, a life-threatening situation is a related emergency that poses a threat to the health or safety of one or more members of the household.

Eligible households with a life-threatening emergency will be provided assistance no later than 18 hours after the household's application for LIHEAP benefits. Assistance is defined as contact with the vendor to intercede on the household's behalf to resolve the crisis situation.

HSD contracts the weatherization component to the New Mexico Mortgage Finance Authority (MFA) which functions as a pass through entity to their service providers. We conduct a yearly on-site visit and Management Evaluation (ME). The ME consists of fiscal and program review. On a monthly basis we conduct second party review of invoices and payments along with cross referencing the billing with MFA's weatherized unit report to ensure that services are allocable and allowable.

Local Administering Agencies / District Offices:

✓ On - site evaluation

Annual program review

Monitoring through central database

Desk reviews

✓ Client File Testing / Sampling

Other program review mechanisms are in place. Describe:

ISD field office Line Managers conduct random LIHEAP case reviews to make sure all policies and procedures are met by field staff approving applications.

LIHEAP staff conduct monthly case reviews of randomly selected households to ensure that all policies and procedures are being adhered to.

10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.

Bill Assistance

Case desk reviews are conducted monthly by supervisors in all 35 field offices. These desk audits are randomly selected and are completed by the supervisors to ensure that policy and procedure are being followed by field staff approving applications.

Payment reviews are part of the state's eligibility system, ASPEN. ASPEN generates error alerts on LIHEAP cases where a benefit cannot be issued. Staff will correct the error to ensure that the payment is released to the vendor/client. (Sample attached)

Weatherization

LIHEAP Central Office monitors the weatherization contractor monthly by evaluating the invoices and unit report and yearly by conducting an on-site Management Evaluation (ME) and a desk audit.

10.7. Describe how you select local agencies for monitoring reviews.

Site Visits:

Bill Assistance

In lieu of site visits, HSD has implemented desk audits that are conducted by the LIHEAP Unit. A random sample of 400 cases is chosen monthly and LIHEAP staff review applications and required documentation to ensure that ISD field offices are complying with state and federal rules/regulations. Staff work directly with field office managers to ensure that cases improperly processed are corrected.

Weatherization

The Management Evaluation (ME) consists of a site visit to MFA and their weatherization providers. We rotate between the providers yearly unless concerns arise to evaluate the provider the following year.

Desk Reviews:

Bill Assistance

Desk Reviews are done monthly in the LIHEAP office. These are randomly chosen and then reviewed to ensure policy and procedure are followed.

Weatherization

Monthly desk audits are conducted on the invoices and unit reports in conjunction with a yearly on site audit of the contractor.

10.8. How often is each local agency monitored?

LIHEAP staff reviews randomly selected cases each month to ensure that ISD field staff is following the application protocol for benefit approval. Each local field office also conducts reviews on a monthly basis.

10.9. What is the combined error rate for eligibility determinations? OPTIONAL

This is not currently tracked.

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

Performance Measures for this year will include timeliness of application processing and issuance of benefits to clients. Consumption data from 113 vendors to include natural gas, electric, and propane is submitted and reviewed quarterly. New Mexico currently obtains data from the state's Automated System Program and Eligibility Network (ASPEN). Changes to data elements were incorporated into ASPEN in FFY2017. Upon review of data for the Performance Measure report, it was determined that the configuration of how the data was being collected for some of the data points was incorrect. Changes by means of an ADHOC report were implemented to ensure that New Mexico was providing the most accurate data possible.

Section 19: Certification Regarding Drug-Free Workplace Requirements

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central pint is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

- 1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.
- 2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
- 3. For grantees other than individuals, Alternate I applies.
- 4. For grantees who are individuals, Alternate II applies.
- 5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
- 6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
- 7. If the workplace identified to the agency changes during the performance of

the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).

8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Controlled substance means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).
