Applications for heating assistance are processed year-round by the Vermont Department for Children and Families (DCF), Economic Services Division (ESD). Applications for winter crisis assistance are processed by Vermont's five Community Action Agencies under grant agreements with ESD, beginning the last Monday in November up to and including the last business day in April, or until crisis funds are exhausted, whichever occurs first.

Vermont also operates a year-round, limited-funded, crisis fuel tank replacement program for fuel tanks that have been "red-tagged," or are at imminent risk of failure. The crisis tank replacement program is operated under an interagency agreement with the Department of Environmental Conservation and a second agreement is in place with the DCF Office of Economic Opportunity. In addition, DCF Office of Economic Opportunity (OEO) also operates under our Crisis program a year round furnace repair and replacement program.

Weatherization assistance operates year round and is conducted by the the DCF Office of Economic Opportunity (OEO), Weatherization Program . .

Categorical Eligibility, 2605(b)(2)(A) - Assurance 2, 2605(c)(1)(A), 2605(b)(8A) - Assurance 8

1.4 Do you consider households categorically eligible if one household member receives one of the following categories of benefits in the left column below? Yes No

If you answered "Yes" to question 1.4, you must complete the table below and answer questions 1.5 and 1.6.

	Heating	Cooling	Crisis	Weatherization
TANF	<input type="radio"/> Yes <input checked="" type="radio"/> No			
SSI	<input type="radio"/> Yes <input checked="" type="radio"/> No			
SNAP	<input checked="" type="radio"/> Yes <input type="radio"/> No	<input type="radio"/> Yes <input checked="" type="radio"/> No	<input type="radio"/> Yes <input checked="" type="radio"/> No	<input type="radio"/> Yes <input checked="" type="radio"/> No

1.5 Do you automatically enroll households without a direct annual application? Yes No

If Yes, explain:

Households that submit an application for SNAP and Heating Assistance will be considered categorically eligible for LIHEAP. Households that receive categorical eligibility for LIHEAP will have a certification period set based on the SNAP certification period, which will be 12 months, 24 months, or 36 months. SNAP certification periods are set based on the composition of the household. When multiple SNAP households exist within one LIHEAP household, the certification period will be set at the shortest SNAP certification period within that household. If not all individuals in the heating assistance household are in receipt of SNAP, the household will not be categorically eligible for LIHEAP. All other LIHEAP program requirements must be met in order to receive a heating assistance benefit. This component of the LIHEAP program will go into effect 10/1/20

1.6 How do you ensure there is no difference in the treatment of categorically eligible households from those not receiving other public assistance when determining eligibility and benefit amounts?

The use of categorical eligibility does not change LIHEAP program criteria, only certification periods.. All benefit amounts and program requirements are consistent between categorically eligible households and non-categorically eligible households. The only difference is the certification period.

SNAP Nominal Payments

4.1 Designate the income eligibility threshold used for the crisis component

Add	Household size	Eligibility Guideline	Eligibility Threshold
1	All Household Sizes	State Median Income	60.00%

4.2 Provide your LIHEAP program's definition for determining a crisis.

A crisis is found to exist in households that are at imminent risk of losing home heating because they have nearly exhausted their current supply of primary heating fuel, or have received a shutoff notice from their natural gas or electricity company, and the company either provides metered service for their primary heating source, or supplies service to a necessary component of their primary home heating equipment. Criteria for determining the existence of a home heating crisis include, but are not limited to, the following circumstances: (1) the household's primary heating fuel tank is at 25% or less of its full capacity; (2) there is one week's supply or less of fuel for households whose primary heating sources include firewood, wood pellets, or coal; (3) the household has received a disconnect notice for a metered utility, and the utility is responsible for either providing the household's primary fuel source, or for operation of a necessary component of the household's primary home heating equipment.

4.3 What constitutes a life-threatening crisis?

A life-threatening crisis is any medical condition (physical, cognitive, or other) that requires a member of the fuel household to remain in the home and not be temporarily relocated to an alternate residence (such as another home belonging to family or friends, a commercial lodging establishment, or a residential shelter). The medical condition must be documented in writing (a letter or an email written within 30 days of the crisis fuel application) by a Vermont-licensed medical practitioner who is knowledgeable about the household member's condition. Services to resolve the home heating crisis must be completed within 18 hours of the household being determined eligible. If necessary, a benefit to pay for special trip, start-up, or similar charges may be included in the crisis fuel grant.

Section 8: Agency Designation, 2605(b)(6) - Assurance 6 (Required for state grantees and the Commonwealth of Puerto Rico)

8.1 How would you categorize the primary responsibility of your State agency?

<input type="checkbox"/>	Administration Agency
<input type="checkbox"/>	Commerce Agency
<input type="checkbox"/>	Community Services Agency
<input type="checkbox"/>	Energy / Environment Agency
<input type="checkbox"/>	Housing Agency
<input checked="" type="checkbox"/>	Welfare Agency
<input type="checkbox"/>	Other - Describe:

Alternate Outreach and Intake, 2605(b)(15) - Assurance 15

If you selected "Welfare Agency" in question 8.1, you must complete questions 8.2, 8.3, and 8.4, as applicable.

8.2 How do you provide alternate outreach and intake for HEATING ASSISTANCE?

The Department for Children & Families' "Economic Services Division" is responsible, state-wide for: SNAP, TANF and LIHEAP. A single coordinated application allows clients to apply for any benefits they require. Eligibility is coordinated so that all programs are reviewed at the same time once a year. Clients may apply with a traditional paper application or apply on-line. Confidential benefit information is available to clients at 12 district offices, on-line (password protected) and by phone (password protected) through the ESD Benefits Service Center. Additionally, outreach occurs for both seasonal and crisis components via local Area Agencies on Aging and Community Action Agencies.

8.3 How do you provide alternate outreach and intake for COOLING ASSISTANCE?

Vermont does not operate an established "cooling assistance" component.

8.4 How do you provide alternate outreach and intake for CRISIS ASSISTANCE?

Crisis Assistance Component is administered by the five Community Action Agencies (CAPs) under annual grant agreements managed by Economic Services Division's "Office of Fuel & Utility Programs." The CAPs along with ESD and the F&U Office, as well as local Area Agencies on Aging each perform outreach activities. ONLY the CAPs do crisis assistance intakes. When a client seeks a crisis assistance grant

and has not received their seasonal fuel grant, the CAP worker will request that an ESD worker expedite that client's seasonal fuel grant to alleviate the crisis.

8.5 LIHEAP Component Administration.	Heating	Cooling	Crisis	Weatherization
8.5a Who determines client eligibility?	State Welfare Agency	Non-Applicable	Community Action Agencies	Community Action Agencies
8.5b Who processes benefit payments to gas and electric vendors?	State Welfare Agency	Non-Applicable	Community Action Agencies	
8.5c who processes benefit payments to bulk fuel vendors?	State Welfare Agency	Non-Applicable	Community Action Agencies	
8.5d Who performs installation of weatherization measures?				Community Action Agencies

If any of your LIHEAP components are not centrally-administered by a state agency, you must complete questions 8.6, 8.7, 8.8, and, if applicable, 8.9.

8.6 What is your process for selecting local administering agencies?

Crisis - the LIHEAP Crisis Assistance Component is administered by the five Community Action agencies (CAPs) under annual grant agreements managed by ESD's "Office of Fuel & Utility Programs." The CAPs are an established community partner with access to non-government resources to address a client's home heat or energy crisis. This "one stop shopping" approach to crisis resolution provides the most effective customer service possible. Weatherization - Wx is NOT a function of ESD. Wx is the responsibility of the Dept for Children & Families' "Office of Economic Opportunity (OEO). OEO maintains grant agreements with the five Weatherization Assistance Program (WAPs) agencies - four of which are components of community action agency and the fifth is an independent Wx non-profit.

8.7 How many local administering agencies do you use? Five Community Agencies and one weatherization non-profit

8.8 Have you changed any local administering agencies in the last year?

- Yes
 No

8.9 If so, why?

<input type="checkbox"/>	Agency was in noncompliance with grantee requirements for LIHEAP -
<input type="checkbox"/>	Agency is under criminal investigation
<input type="checkbox"/>	Added agency
<input type="checkbox"/>	Agency closed
<input type="checkbox"/>	Other - describe

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 9 - Energy Suppliers,, 2605(b)(7) - Assurance 7

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
ADMINISTRATION FOR CHILDREN AND FAMILIES

August 1987, revised 05/92,02/95,03/96,12/98,11/01
OMB Clearance No.: 0970-0075
Expiration Date: 09/30/2020

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating Yes No

Cooling Yes No

Crisis Yes No

Are there exceptions? Yes No

If yes, Describe.

Seasonal fuel assistance clients that heat with firewood or wood pellets receive a cash benefit to be used to pay for wood or pellets. Clients whose heat is included in their rent receive a cash benefit to off-set the undesignated portion of their monthly rent that is applied by the landlord to pay for heat and or utilities. There are no payment exceptions for crisis fuel assistance. All payments are made to the fuel or energy supplier by the CAP.

9.2 How do you notify the client of the amount of assistance paid?

For seasonal fuel assistance: clients receive a printed notice by mail advising them of the amount of their benefit, applicable terms and the name of the fuel or energy dealer who received their benefit. Clients who are denied assistance also receive a printed notice by mail. Clients may also go on-line or by phone through the ESD Benefits Service Center obtain information about the status of their seasonal assistance benefit. Information on-line and by phone are password protected. For crisis fuel assistance: clients receive a copy of their application from the CAP indicating the grant details (amount, fuel/energy type, dealer or utility paid), or if they were denied they get a letter with the reason for the denial which also includes their rights to appeal.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

For seasonal fuel assistance: dealers are certified by the ESD Fuel and Utility Office and payment terms and conditions and prices are established (see: http://dcf.vermont.gov/sites/dcf/files/pdf/esd/fuel/Terms_Conditions.pdf). Included in those terms is a requirement that the fuel supplier provide to the eligible households periodic statements of account activity including the receipt, credit and balance of the seasonal fuel benefit. At the end of the fuel season, all certified dealers are required to submit a "Consumption and Refund Report" documenting the use of each customer's seasonal fuel assistance benefit. Annually, the F&U Office audits a selected number of dealers to confirm that billing and pricing practices are in accordance with certification requirements. The seasonal fuel benefit pays only a portion of a household's winter home heating bill. Clients are directed (in their notice referenced in 9.2 above) to contact the Economic Services Division (ESD) with questions or concerns regarding their benefit. Questions and concerns regarding account activity or pricing by the fuel supplier are referred to the F&U Office for resolution. For crisis fuel assistance: dealer and utilities submit bills for payment to the CAPs. The CAPs financial staff apply accepted accounts receivable review and payment practices. The certified dealers, the CAPs and the F&U Office cooperate fully on required adjustments (positive and negative) when payment or billing errors are identified in seasonal and/or crisis fuel assistance.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

The terms and conditions of the fuel supplier certification agreement referenced in 9.3 above contains discrimination and confidentiality clauses. End of season audits of selected "Consumption and Refund Report" included a price comparison between the price charged to recipient households on specific dates with the supplier's "pricing sheet" for non-recipient customers. In addition the Fuel and Utility Office accepts and investigates any complaint regarding discrimination in prices for services and the maintenance of confidentiality by a certified fuel supplier.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

The certification agreement that permits payments to all certified fuel suppliers, regulated and unregulated, require annual Consumption Reports referenced in 9.3 above. That information is shared with the Weatherization Offices. Wx services prioritize their services to LIHEAP recipients, with the highest energy consumption, and with 'vulnerable' household members.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

Vermont submitted LIHEAP Performance Measures data for FFY2019 for households that are served by the top ten vendors for each delivered fuel type, as well as for households that are served by utility companies that provide services to over 90% of our LIHEAP caseload.

We continue to look at our performance data and have discussions around the work we are doing and is there a better way to serve Vermonters.
