Heating Yes

Cooling Yes

Crisis

Are there exceptions? Yes

If yes, Describe.

Eligible households who cut their own wood may receive a direct payment if there is reasonable evidence to support that the household has a sufficient supply for the heating season and the household does not have a utility vendor.

9.2 How do you notify the client of the amount of assistance paid?

All applicants are provided with a notice advising of their eligibility, the vendor to which the payment is authorized and the amount paid on their behalf.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

 MODEL PLAN
 SF - 424 - MANDATORY**

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

NYS OTDA utilizes fiscal and fund accounting procedures similar to those utilized by the agency and local social services districts in the administration of other income-tested assistance programs. Districts are provided with allocations for administration and for district payments and claims are monitored by NYS OTDA fiscal staff to ensure that allocation levels are not exceeded. The NYS OTDA Welfare Management System (WMS) is used to monitor application activity and benefits authorized outside of NYC. NYC utilizes its own computer system to authorize and pay HEAP benefits and NYC provides reports to NYS OTDA from its system for review.

The use of LIHEAP funds sub allocated to the NYS Homes and Community Renewal (HCR) and the New York State Office for the Aging (NYSOFA) is governed by a Cooperative Agreement which OTDA enters into with these agencies on an annual basis. The Cooperative Agreements require that HCR and NYSOFA transmit fiscal reports to OTDA on a quarterly basis that show the amount of LIHEAP funds obligated and expended by category of expenditure.

OTDA conducts periodic reviews of HCR's and NYSOFA's administration of LIHEAP funded weatherization programs.

Audit Process

10.2. Is your LIHEAP program audited annually under the Single Audit Act and OMB Circular A - 133?

Yes

10.3. Describe any audit findings rising to the level of material weakness or reportable condition cited in the A-133 audits, Grantee monitoring assessments, inspector general reviews, or other government agency reviews of the LIHEAP agency from the most recently audited fiscal year.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 14:Leveraging Incentive Program, 2607(A)

14.1 Do you plan to submit an application for the leveraging incentive program?

Yes

14.2 Describe instructions to any third parties and/or local agencies for submitting LIHEAP leveraging resource information and retaining records.

Protocol for submission on leveraging activities to OTDA: Submission of data on leveraging activities is due to NYS OTDA by October 15th of each year.

- To meet criterion (i) of section 96.87(d)(2), the grantee's LIHEAP program, at the central and/or local agency level, must have a substantive role in developing and/or acquiring the resource/benefits from energy vendor(s) through negotiation, regulation, and/or competitive bid. Only resources obtained from energy vendors (for example, utility companies and delivered fuel vendors) may be counted under criterion (i). Resources counted under criterion (i) do not need to be described/covered in grantees' LIHEAP plans.

- To meet criterion (ii) of section 96.87(d)(2), the grantee must appropriate or mandate the resources/benefits for distribution to low income households through (within or as a part of) its LIHEAP program, in accordance with the LIHEAP statute and regulations and the grantee's LIHEAP plan and program policies that were in effect during this base period. The benefit from the resource is a part of a household's LIHEAP benefit, not an additional benefit that is not part of the LIHEAP program. The plan must include the type of assistance/benefits that are provided by the resource, although the leveraged resources/benefits do not necessarily have to be mentioned by name in the plan. Under this criterion, for example, a grantee could not count assistance with cooling costs or purchase of fans if the plan did not include these activities for the regular LIHEAP program. (Leveraged benefits that supplement LIHEAP benefits that were inadequate, but that are distributed outside the LIHEAP program, would not count under criterion (ii). Grantees should look to criterion (iii) for such resources.)

- To meet criterion (iii) of section 96.87(d)(2), the grantee must appropriate or mandate the resource/benefits for distribution to low income households as described in its LIHEAP plan, as a supplement and/or alternative to its LIHEAP program, integrated and coordinated with its LIHEAP program, but outside (not through, within, or as a part of) its LIHEAP program. Under this criterion, the resource must meet at least 1 of 8 listed conditions (conditions (A) - (H)) to demonstrate that it is integrated and coordinated with the grantee's LIHEAP program. (A single leveraged resource/benefit cannot be counted under both criterion (ii) and criterion (iii), because a single resource/benefit cannot be provided both through (criterion (ii)) and outside (criterion (iii)) the grantee's LIHEAP program.)

14.3 For each type of resource and/or benefit to be leveraged in the upcoming year that will meet the requirements of 45 C.F.R. Â§ 96.87(d)(2)(iii), describe the following:

Resource	What is the type of resource or benefit ?	What is the source(s) of the resource ?	How will the resource be integrated and coordinated with LIHEAP?
1	Weatherization	NYS HCR	Part of NYS LIHEAP appropriation is utilized by HCR to provide weatherization services to HEAP eligible household through the weatherization Assistance Program (WAP).
2	Weatherization/EMPOWER	NYSERDA EMPOWER	The NYS Energy Research and Development Authority (NYSERDA) administer low income weatherization assistance programs funded through utility system benefit charges. These charges are collected via utility bills.
3	Utility Allowance	NYS OTDA	NYS, as part of its fully State and locally funded Safety Net Assistance (SNA) program, directly provides households responsible for paying heating costs with a basic fuel allowance each month. In addition, all SNA recipient households are given a home energy allowance and a supplement home energy allowance which, by definition, are provided to eligible households to cover increases in the cost of energy. These same benefits are also provided to Temporary Assistance for Needy Families (TANF) recipients.
4	Non-public fuel funds to assist with utility bills	All Public Service Commission (PSC) regulated utilities in NYS	All PSC-regulated utilities in NYS operate non-public funded fuel funds to assist their service territory population with payments of energy bills. These resources are targeted to HEAP-eligibility households that have exhausted their HEAP eligibility or are ineligible because of the unavailability of LIHEAP funding.
5	Tax exemption for Temporary Assistance recipients	NYS OTDA	NYS has exempted the collection of sales taxes from Temporary Assistance (TA) recipients whose ongoing utility/fuel bills are restricted and paid by the local department of social services.
6	Low Income Customer Assistance Plans	NYS Utility Companies	Several NYS utility companies have recently implemented low-income customer assistance plans. The plans consist of two components: rate moderation and Several NYS utility companies have recently implemented low-income customer assistance plans. The plans consist of two components: rate moderation and uncollectable initiatives, including a negotiated percentage of income plan, coupled with an arrearage forgiveness arrangement.

7	Reduce energy costs through aggregation	NYS OTDA & NYS PSC	In conjunction with various local social services districts and the national fuel gas distribution corporation, NYS has established the Temporary Assistance Cooperative for Energy (PACE) program. PACE is a natural gas aggregation program for certain TA recipients in Erie, Chautauqua and Niagara counties in NY. The program's objective is to provide the benefits of competition to low-income payment troubled customers by offering the opportunity to reduce energy costs through aggregation.
8	Fuel Buying component	NYS OTDA	OTDA has established a HEAP fuel buying component in NYS. The purpose of this component is to expand the buying power of LIHEAP dollars by obtaining a lower than retail price for HEAP purchased oil, kerosene and propane. This discounted price materially enhances the purchasing power of LIHEAP eligible households.
